About Myself

- I'm open minded, caring & resourceful and optimistic, have a good sense of humour. So I get on easily with people of all ages and background.
- In addition, I am an active and enthusiastic person, I am willing to learn and do what takes to get a job done well even under pressure or on far mission. I love designing and I will do my best for that. At work, I always have high responsibility, try to finish assigned task ontime.
- I graduated from Graphic Design academic of a famous University. I have been trained not only basic but also advanced knowledge in my courses.

I have almost 9 years of experience work as UI/UX – Graphic Designer at domestic & foreign companies and freelancer in both large and small projects, therefore I'm so confident to work as the best as I can.

In the future, I want to improve my UX skill and make more creative to catch up the design trending
